#### 43 SNOB

From new carved-wood consoles to antique jewellery, everything in this eclectic east-end shop is African-inspired. Designers frequent SNOB in search of objects that tell a story: stone sculptures, a red leather desk, or a jewel-coloured tribal headdress made of feathers. Framed antique African currency (\$425) would add a global feel to a home office while a Kudu Horn Lamp makes a living room look like an exotic luxury lodge. A wide selection of unique pillows — from embroidered to button-covered — are big sellers (from \$175).
