1. TABLE TALK

These drool-worthy, one-of-a-kind napkin holders, which feature amethyst, turquenite and fuchsia agate set in 24-karat gilt gold, might have been inspired by ancient Aztec Indians, but are sure to arouse modern appetites.

2. ASIAN SENSATION

Orient your room around this Asian-angled seat. The whimsical colour adds an original accent while the design brings the Far East closer to home.

3. JAGGED EDGE

With its high-gloss finish, the Gormley table by Richard Shemtov might be resistant to liquids, but not to the lusting looks it arouses. Blending serrated lines with vivid colour options, this quirky table adds instant edge to any abode.

4. COINK!

Save in style with Harry Allen's chrome piggy bank. Cast from a real pig that died of natural causes, this sexy swine is the place for your dime. So hip, it will have you licking your chops.

5. GLOWING STONES

With their brilliant colour and rugged beauty, these hand-designed Bahamas lamps, comprised of crystalline mineral chunks, will be the rock stars of the room.
